

BUBBLER SYSTEM

GLOVEBOX PRESSURE SAFETY RELEASE

ACC-PRV-ASM

Pressure release bubbler for gloveboxes.

The pressure release controller allows the chamber to remain sealed when within the standard pressure operating conditions. Should the internal or external differential pressure go above the set level, the bubbler will allow gas into, or out of the enclosure to protect the integrity of the enclosure and gloves.

- Adjustable Pressure release control
-250pa - +250pa
- Dimensions (WxDxH mm) 160 x 160 x 300
- 316 Stainless Steel and Glass
